

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	PRIME NUMBER	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
Program will ask the user to input any number of their choice.	Program will calculate to see if the number is a true prime or false prime using the boolean function.	The program will tell the user the number, and if it is prime or not.
