

## Error Log Group Assignment

```
if (firstLetter >= 'A' && firstLetter <= 'I')  
    groupnumber = 1;
```

I accidentally forgot to match up my variables causing an error.

```
groupNumber = 1;  
  
(firstLetter >= 'J' && firstLetter <= 'S')  
    groupNumber = 2;  
  
(firstLetter >= 'T' && firstLetter <= 'Z')  
    groupNumber = 3;
```

Fixed the error.
